### Course Delivery and Assessment

Our course has been developed by the industry experts and is an easy to follow, interactive and engaging experience. You will learn from industry experts who will support you and you will have great hands-on experience during the course. Core unit theory and essential knowledge components are delivered in the classroom. Practical skills will be developed through practical simulations under supervision. Assessment will be through demonstration of knowledge through questions and answers and projects and demonstration of skills and knowledge through practical simulations of workplace activities.

We have developed online learning resources and tools to make your learning much easier. You will be allocated a tablet for use during class time which means you won't have to hand write everything! As part of our pre-enrolment process, we will discuss this further with you and explore any support where necessary.

### Course Outcomes

Upon successful completion of this Qualification, you will be issued with an official certificate; CPP20218 Certificate II in Security Operations.
